6. Use the search bar to find the kinds of books you would like to borrow. Each book will say “IN” or “OUT” on the top to let you know if it is available.

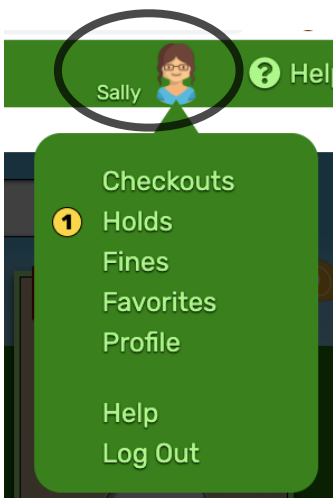

7. Click on the cover of the book to find out more about the book. If you want even more information, click on “More Details.”

8. If you want to borrow this book from the library, click on “Hold.”

If you change your mind about a hold, you can “unhold” a book.

9. To see what books you have out, what books you have on hold, and to change your profile picture, click on the image next to your name at the top of the screen.

10. Explore different ways to use Destiny - search by keyword, author, subject, title - or use the “Topics” or “Popular Titles” choices on the page to find books you can’t wait to read.
